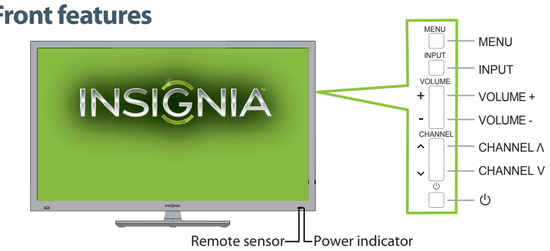
A copy of your *User Guide* is not provided in the box but is available online.
Go to www.insigniaproducts.com, click **Support & Service**, enter your model number in the *Product Search* field, then click **Search**.

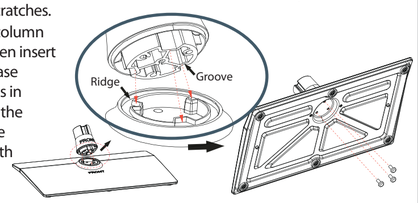
Front features



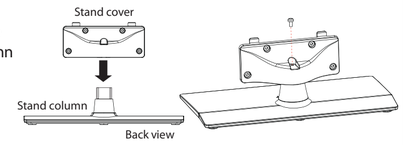
Installing the stand

1 Carefully place your TV screen face-down on a cushioned, clean surface to protect the screen from damages and scratches.

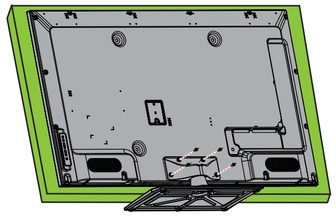
2 Align the front of the stand column with the front of the base, then insert the stand column into the base making sure that the grooves in the stand column align with the ridges in the base. Secure the stand column to the base with three M5 × 12 mm screws (provided).



3 Align the stand cover with the stand column, then secure the stand cover to the stand column with one M5 × 12 mm screw (provided). Make sure that the bottom of the stand cover is flush against the top of the stand column.



4 Secure the stand cover to the TV using four M5 × 12 mm screws (provided).



Installing a wall-mount bracket

1 Carefully place your TV screen face-down on a cushioned, clean surface to protect the screen from damages and scratches.

2 Insert four spacers (provided) into the corresponding bracket screw holes on the back of your TV, then attach the wall-mount bracket to your TV using four M6 × 25 screws (provided) or the screws/spacers provided with the wall-mount bracket. See the instructions that came with the wall-mount bracket for screw/washer configurations and information about how to correctly hang your TV.

Warning

This apparatus is intended to be supported by a UL Listed wall-mount bracket.

Identifying cables

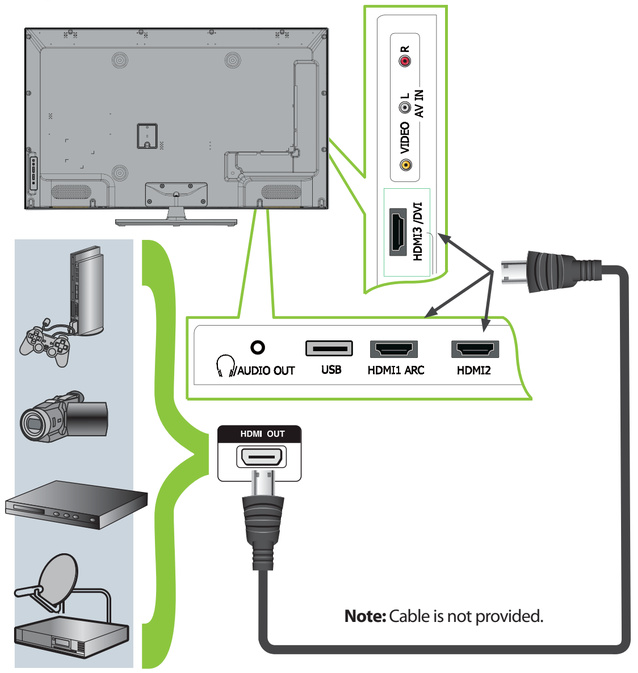
Your TV has several connection types for connecting devices. For the best video quality, connect a device to the best available connection.

Connection type	Video quality	Cable connector
HDMI video/audio	Best	
OR		
Component video and analog audio	Better	
OR		
Composite video and analog audio	Good	

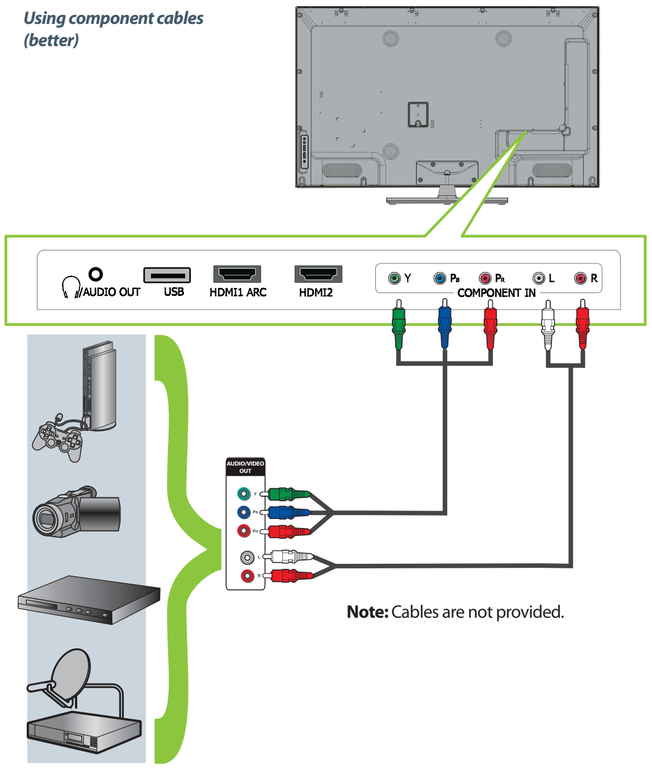
You can use the HDMI 3/DVI jack to connect a DVI device to your TV. You need to attach an HDMI-to-DVI adapter to the end of the HDMI cable that connects to the DVI device's jack.

Connecting a DVD or Blu-ray player, cable box, satellite receiver, camcorder, or game station

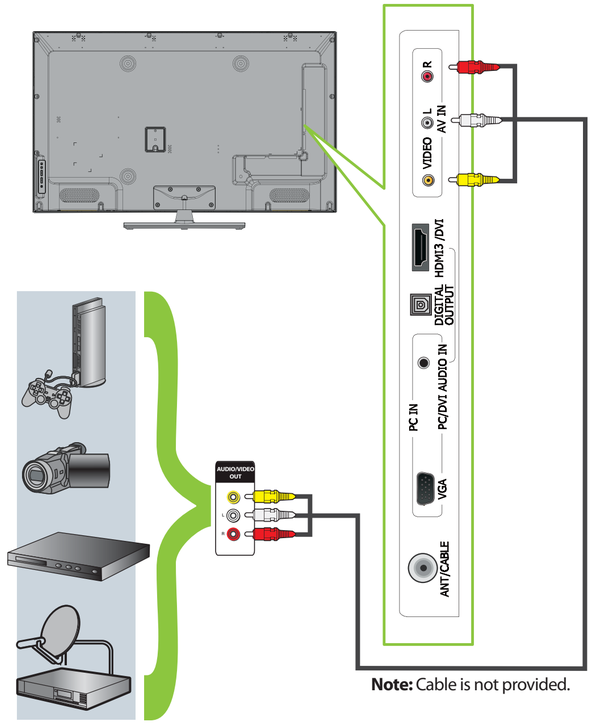
Using an HDMI cable (best)



Using component cables (better)

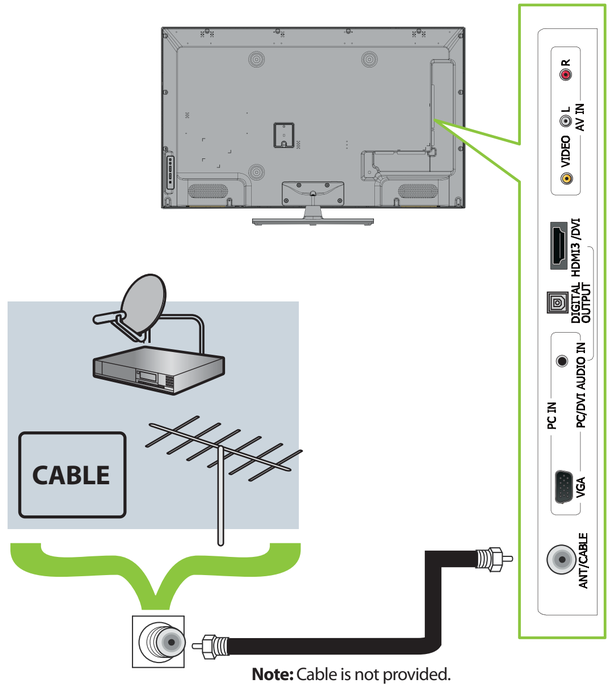


Using an AV cable (good)



Connecting an antenna/cable wall jack

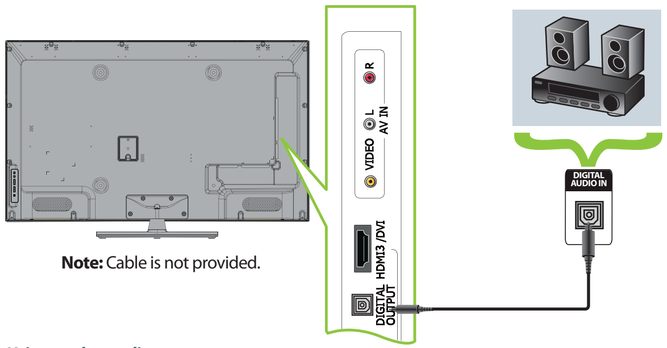
Connect a coaxial cable to the **ANT/CABLE** jack on the side of your TV and to the antenna/cable wall jack.



46" 1080p LED TV **I QUICK SETUP GUIDE I** NS-46E481A13

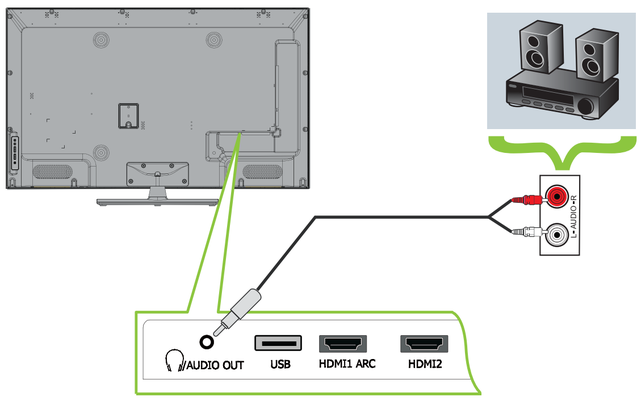
Connecting a home theater system

Using digital audio



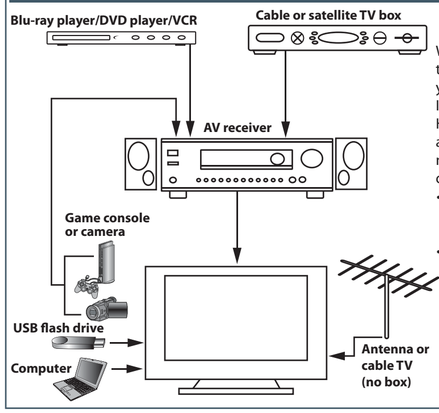
Note: Cable is not provided.

Using analog audio



Note: Cable is not provided.

Connecting a home theater system with multiple devices

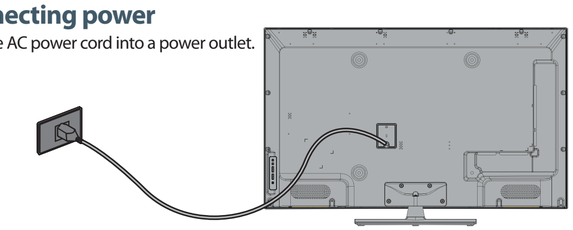


We recommend that you connect the AV receiver's **HDMI OUT** jack to your TV's **HDMI 1 ARC** jack.
In the following situations, the HDMI cable routes Dolby Digital audio to the AV receiver, so you do not need to connect a separate digital audio cable:

- When you have a game console connected to one of your TV's HDMI jacks.
- When you watch a program through an antenna or cable TV connected to the **ANT / CABLE** jack.

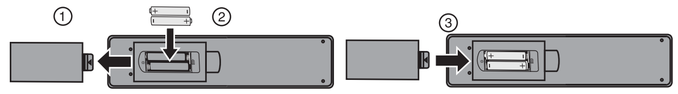
Connecting power

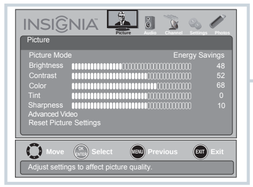
Plug the AC power cord into a power outlet.

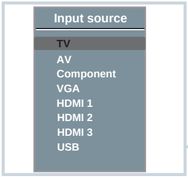


Setting up and using your remote control

1 Press the release button on the back of the remote to remove the battery compartment cover.
2 Insert two AAA batteries into the battery compartment. Make sure that the + and – symbols on the batteries match the + and – symbols in the battery compartment.
3 Replace the cover.







Aspect ratio options

Normal:
Displays the original 4:3 aspect ratio with vertical black bars on the left and right hand side of the screen.

Zoom:
Expands the image to fill the screen. The top and bottom of the image may be cropped.

Wide:
Use this option to view content recorded in a 16:9 (wide-screen) aspect ratio.

Cinema:
Stretches the image at the edges, but keeps a clear image in the center.

Auto:
Automatically adjusts the image based on the screen size and the TV program. **Note: Auto** is only available when **Auto Zoom** in the *CHANNELS* menu is set to **On**.

Turning on your TV for the first time

1 Connect your TV's power cord to a power outlet, then press ⏻ (power). The *Choose Your Menu Language* screen opens.
2 Press ▲ or ▼ to highlight a language, then press **ENTER**. The *Choose Your Time Settings* screen opens.
3 Press ◄ or ► to select **Auto** or **Manual**. If you select **Auto**, the date and time are set automatically from a digital TV signal. If you select **Manual**, you can manually set the date and time. Press **ENTER**. The *Choose Your Picture Mode screen* opens.
4 Press ▲ or ▼ to highlight **Home Mode** or **Retail Mode**, then press **ENTER**. If you select **Retail Mode**, a message asks you to confirm your selection. Select **Yes** or **No**. **Retail mode** is not an energy-saving mode. The *Choose Your TV Source* screen opens.
5 Press ▲ or ▼ to highlight **Antenna**, **Cable**, or **Satellite Box**, then press **ENTER**.
A. If you select **Antenna**, your TV scans for available channels. The scan may take several minutes.
B. If you select **Cable**, a message asks if you have a cable box.
- Select **No** if no cable box is connected. Your TV scans for available channels. The scan may take several minutes.
- Select **Yes** if a cable box is connected. A message asks how you connected the cable box to your TV:
- Select **AV**, **Component, or HDMI** if you connected a cable box to your TV using one of these cables. Read the message, then press **ENTER** to close the wizard.
- Select **Coaxial** if you connected a cable box to your TV using a coaxial cable. Read the message, then press **ENTER** to start the channel scan (VHF channels only).

C. If you select **Satellite Box**, a message asks how you connected the satellite box to your TV:
- Select **AV**, **Component**, or **HDMI** if you connected a satellite box to your TV using one of these cables. Read the message, then press **ENTER** to close the wizard.
- Select **Coaxial** if you connected a satellite box to your TV using a coaxial cable.

Read the message, then press **ENTER** to start the channel scan (VHF channels only).
